**Jeffrey Epstein was a Mossad and CIA asset who received his funds from Les Wexner and Charles Bronfman's Mega Group, which is a Mossad front organization (incidentally, Charles Bronfman's niece, Clare Bronfman, was involved in NXIVM).**
**Alan Dershowitz was introduced to Jeffrey Epstein by Lynn Forester de Rothschild. Ghislaine Maxwell's fake charity TerraMar was set up so that the Elites could engage in seasteading to skirt the law by committing crimes in international waters.**
**Nathan Wolfe, an associate of Ghislaine Maxwell and one of TerraMar's "founding citizens", is the head of Metabiota, a company responsible for funneling DTRA money into certain biolabs abroad, also funded by Hunter Biden's Rosemont Seneca.**
**In Jeffrey Epstein's flight logs, there is a helicopter listed with the tail number N474AW. There is no Bell helicopter with that tail number in the FAA's database.**
**instead, that tail number belonged to an OV-10 Bronco used by DynCorp, the mercenary company frequently contracted by the US State Department. DynCorp are also infamous for engaging in human trafficking in Bosnia and soliciting dancing boys in Afghanistan.**
**Jeffrey Epstein was not some rich socialite who blackmailed CEOs, politicians, and other dignitaries out of the blue with child sex tapes. He was a peon following orders, set up to look like a rich socialite with money from intelligence slush funds.**
**He did it to put those people under the thumbs of the Intelligence Community. Particularly, FVEY and Mossad.**
**People don't understand how this can happen because they still don't get how the world actually works. Our**

**politicians are the finger puppets of national security people.**
**The purpose of voting and party politics is to give people an illusion of choice, to act as a relief valve for public anger. In reality, all policies of any real import stem from the IC.**
**In the US, this began when Harry S. Truman created an intelligence mafia to act as a hedge against what he saw as the potential for a soft military coup in the US. This ended up being a mistake, because the CIA practically took over our government.**
**So, think long and hard about what Alexander Acosta meant when he said Jeffrey Epstein"Belonged to Intelligence".**
**They don't want us to ever have that client list. It was not for our eyes. The "little people" were never, ever supposed to see it. It is a roster of people who have been compromised by**
**intelligence, whose every action is dependent on the whims of a shadow bureaucracy.**
**People go out, and they vote, and they do so entirely in vain, because our politicians have been almost completely captured by intelligence, by hidden wealthy interests, and by immensely powerful supranational organizations. The whole system is corrupted from top to bottom.**
**Reasonable people everywhere are entrusting their lives and their well-being to depraved criminal scum.**
**This is the real reason why the Gov't. will never give up the Epstein Files---> they are closely guarded secrets of the IC to control politicians, the elite and powerful businessmen, etc.**
